As of 30th June 2025, the unemployment rate in Silesia was 3.8% (country 5.2%). Our voivodship is on the second place on the list of voivodships with the lowest indicator value, just after Wielkopolska (3.1%).

The unemployed people registered in local labor offices and the unemployment rate (as of the end of month)

¹ In accordance with the Act of 1 June 2025 on Labour Market and Employment Services Law, registration of unemployed person takes place at the district labour office with jurisdiction over the place of residence, rather than the place of registration, as before. This means that a person registered in one place, but living in another, can register at the labour office corresponding to his current place of residence. Due to the change in the law, current statistics on the situation of the unemployed may not be comparable with those of previous month.

At the end of June 2025, unemployed mostly use the following active forms of counteracting the unemployment: internship, intervention and public works.

In June 2025 in the registers of powiat labor offices of the Silesian Voivodeship there were 2 474 jobseekers. Men predominated among the jobseekers (1 438 people – 58.1%).

At the end of June 2025 there were 4 657 job vacancies and places for professional activation at the disposal for the unemployed and job seekers.

At the end of the reporting quarter, the number of people at risk of collective redundancies in the entire voivodeship amounted to 2 571 people.
